

PROGRAM: Detailed

October 15th

08h30 – 09h30: Registration

09h30 – 10h15: Opening ceremony

Agnès Benassy-Quéré (Banque de France)
Gallo Gueye (Eurostat)
Claudia Mann (European Central Bank)
Roxane Silberman (ESAC)
Didier Blanchet (CESS Scientific Committee / PSE)

10h15 - 10h45: Keynote 1

Enrico Giovannini (University of Rome Tor Vergata and Italian Alliance for Sustainable Development (ASviS))
Beyond GDP: where do we want to go after the UN Summit of the Future?
Chair: Didier Blanchet (CESS Scientific Committee / PSE)

10h45 – 11h15: Break

11h15 – 13h00: Parallel sessions

P1a - GDP and alternative indicators of well-being

F. Pagnon
After growth: A summary of the controversies surrounding the production and use of alternative indicators to GDP

C. Soupart
The Index of Sustainable Economic Welfare – An analysis of the 27 EU countries

S. Dupret, J. McGuire, R. Dwyer, M. Plant and M. Klapow
Going Beyond GDP by Setting Wellbeing Priorities: A Practical Example with the Cost-Effectiveness of Psychotherapy

Chair: Frédérique Savignac (Banque de France)

P1b - Sustainability #1: Carbon accounting (round table)

F. Charpentier and F. Meunier
Carbon national accounts and carbon footprints at product level

S. Larrieu
Decoupling between economic activity and GHG emissions in France: building a fully consistent official statistics framework

U. Von Kalckreuth
From Data to Action: Insights on Carbon Accounting Standards and Practices. People and perspectives meet: an international workshop on carbon content measurement

Chair: Jérôme Cazes (Carbone sur factures)

P1c - Data #1: Mobile network data

F. Carausu *et al.*
Towards Standardisation of Mobile Network Operator (MNO) Data Processing for European Official Statistics

Z. Strain-Fajth *et al.*
Recommended methodology for producing mobility and population statistics from call details records in low- and middle-income countries

M-P. Joubert
Use of MNO data to improve "Beyond-GDP" measurement: MNO-MINDS project challenges

Chair: Tiziana Tuoto (Istat)

13h00 – 14h15: Lunch

14h15 - 15h30: Keynote 2

Jorrit Zwijnenburg and Peter Van de Ven (OECD and WGSNA)

The new SNA

Chair: Maria Antonia Martinez-Luengo (Eurostat)

15h30 – 16h00: Break

16h00 – 17h45: Parallel sessions

P2a – Inequalities #1: Distributional accounts

F. Van Hoenselaar, G. Eijsink and N. Rupert

Vulnerabilities and resilience of Dutch households

N. Blatnik, A. Bobasu, G. Krustev and M. Tujula

Introducing the distribution of wealth accounts for Euro area households

M. André, J.M. Germain and M. Sicsic

Do I get my money back? Distributional Accounts and redistribution. A Broader Approach to Inequality and Redistribution in France With a Monetary Valuation of Public Services

M. Fleurbaey and C. Pesme

Measuring and Representing the Distribution of Growth

Chair: Marc Fleurbaey (PSE)

P2b - Sustainability #2

R. Abbas, M. Cervoni and I. Moutachaker

Assessing the impact of agricultural practices on water biodiversity

J. Sixou, I. Moutachaker, M. André and S. Nass

Exposure of households and their property assets to present and future climate risks in France: a multi-risk study

L. Bloch and D. Bureau

Clarifying the challenges of agricultural sustainability: what role for national accounts?

Chair: Marie Bohata (ESAC)

P2c - Data #2

P. Pereira Da Silva, J.M. Carbo Martinez, A. Deflorio, A. Hodbod, M. Kalfa, U. Kochanska, T. Teulery and E. Koutrouli

Exploring blockchain data by central banks: outcomes from the ECB Decentralised Finance (DeFi) hackathon

K.E. Holst-Hansen and P. Bøegh-Nielsen

The potential of micro data in developing new research frontiers – a business statistics approach

O. Bonnet, O. Diop, T. Loisel, T. Olivia and L. Wilner

Household finance on a day-to-day basis

H.C. Doll, E. Kormanyos, S. Walter and G. Alves-Werb

Climate-related data needs for central banks and beyond – Leveraging novel textual and image data

Chair: Thomas Gottron (ECB)

18h 00 – 21h 30: Cocktail and reception

October 16th

09h00 – 10h30: Parallel sessions

P3a – Inequalities #2: Cost of living

C. Pesme

Dealing with intertemporality: how should living standard indicators treat savings and durable goods?

P. Musil

Group-specific inflation in the Czech Republic: current and future perspective

J. Grilli, P. Schreyer and J. Zwijsenburg

Distributional National Accounts (DNA) at work

Chair: Paul Schreyer (OECD)

P3b - Sustainability #3

U. Von Kalckreuth

Harnessing the Power of Input-Output Analysis for Sustainability

P. Crifo

The distributive issues associated with greening the economy: green human capital, innovation and growth

R. Abbas, N. Carnot, M. Lequien, A. Quartier La Tente and S. Roux

On the way to net zero. But which way?

Chair: Nicolas Carnot (Insee)

P3c - Data #3: How statistical agencies make micro data available for evidence-based decision making?

R Fuchs

The Austrian Micro Data Center (AMDC): a new service for research access to administrative data

N. Burmeister

Data based decision-making – a Danish case

V. Vertanen and O. Toivanen

Virtual data room for data driven policy making

K. Gadouche and O. de Bandt

Partnership between CASD and BDF: Access and linkage between French national statistical micro-data and Banque de France micro-data

Chair: Markus Sovala (Statistics Finland)

10h30 – 11h00: Break

11h00 – 12h45: Parallel sessions

P4a - Digitalisation / Non-market goods and services

H. Strzelecka

Polish experience in digital platform employment measurement. The need for international harmonization

E. Brynjolfsson, A. Collis, J.J. Lee and D. Nguyen

Comparing Consumer Valuations for 723 Digital, Traditional and Public Goods

P. Benczur, V. Kvedaras and N. Preziosi

Health-adjusted income: complementing GDP to reflect the valuation of life expectancy

Chair: David Nguyen (Stanford University and EscoE)

P4b - Sustainability #4 : Inclusive wealth

C. Taylor, S. Mubarak, K. Chant, R. Fisher and R. Heys

From National Accounts to Inclusive Wealth: A Framework to Bridge Between Market and Accounting Priced Capitals

S. Mubarak

Measuring the Economic Flows of UK Human Capital

R. Smith, L. Bizikova and Z. Zoundi

Measuring "What Counts" through Comprehensive Wealth: A Proposal for Policymakers and National Data Providers in Europe

Chair: Bram Edens (OECD)

P4c - Data #4: International data sharing
--

M. Rumpf The ECB project

S. Bender INEXDA

R. Silberman Towards a European infrastructure of RDCs: IDAN

J. Pilar High value data sets and their linkages

Chair: Matthias Rumpf (ECB)

12h45 – 13h30: Lunch

13h30 – 14h20: Keynote 3

Claudia Senik (PSE) Is it possible to raise national happiness? Chair: Roxane Silberman (ESAC)
--

14h20 – 15h40: Plenary – Extended accounts

M. André, S. Larrieu and <u>S. Roux</u> Beyond GDP: New synthetic indicators mitigating economic activity and inequality or greenhouse gas

V. Meirinhos, C. Taylor and <u>R. Heys</u> Measuring sustainable economic progress in the UK: exploring more inclusive “beyond GDP” measures.
--

P. Benczur, A. Boskovic, J. Cariboni, R. Chevalier, J. Le Blanc, <u>A. Sandor</u> and S. Zec Sustainable and Inclusive Wellbeing, the road forward

Chair: Peter Benczur (EC JRC)

15h40 – 15h55: Break

15h55 – 17h15: Plenary – round table – Agenda and challenges for policy relevance and users

Maria Antonia Martinez-Luengo (Eurostat) Thomas Warmedinger (ECB) Maurizio Vichi (ESGAB) Emmanuel Moulin (Former Head of the Prime Minister's Office) Pervenche Berès (ESAC) Aude Genet (AFP) Chair: Mariana Kotzeva (Eurostat)

17h15 – 17h45: Closing ceremony

Jean-Luc Tavernier (INSEE)

**The underlined names are those of the main speakers*

We recommend that you arrive 30 minutes before the first session to facilitate identity checks. Please remember to have your passport or a valid ID card with you.
